

Project description

Project title

lemon.com.kz - web platform where all the current discounts and promotions of the city for clothes and accessories are collected.

Purpose and needs

There is no single platform where a person could just go and see where the discounts are. It takes quite a long time to find discounts on clothes. You have to go shopping in the mall, or look for them on the Internet from different sources. The main goal of the project is to save people time and money.

Functionality

- Actual discounts on clothes
- Actual discounts on shoes
- Actual discounts on accessories
- Actual discounts and promotions of brands
- Adding products to favorites and sharing on social media.
- Login and registration
- Filtering products by category, brand and price
- Product searching service
